

# vaccineflow

An integrated platform to accelerate the distribution of vaccines for a healthier tomorrow

## Reimagined vaccine management solution

that unifies the process of vaccine distribution and solidifies the relationship between providers, patients and distributors.

### Rapid Deployment

Highly configurable and ready to **deploy in 2-3 weeks** with minimal training and no overhead. Pre-built **integration with EMR** solutions

### Provider Enrollment

Allows **provider to enroll** in the mass vaccination program and drive **patient outreach** based on different priorities and cohort group

### Vaccine Outcome Monitoring

Facilitate the complete **patient vaccination journey** with effective monitoring; self-service guided **adverse reaction** reporting follow up

### Vaccine Appointment & Administration

Simple, intuitive, and **self-service patient scheduling**. Complete traceability and vaccine administration

### Vaccine Inventory Management

Complete **track and trace capability** for each vial from production to administration. Temperature monitoring and **improve just-in-time delivery**

### Public Health Command Center

Provides a **unified dashboard** that gives a comprehensive view of vaccine management, **holistic view** into the health **status of communities**

Enriching the human experience through innovation.
